

Baseplate Installation Instructions

# 2008-11 Mazda Tribute

**Installation Instructions** 

Please read BOTH these Installation Instructions and the General Towing Instructions before attempting to install or operate this equipment.

- Blue Ox® towing products and accessories are intended to be installed by Blue Ox® Dealers who are familiar with our products and have the equipment and knowledge to do "fit work". When necessary, Blue Ox® Dealers can be found at www.blueox.com or by contacting our Customer Care Department at (402) 385-3051.
- Many Blue Ox® Baseplates are designed to use existing holes and hardware to mount the baseplate to the towed vehicle. Even though bolts are there, do not assume they are adequate for baseplate mounting. Always use hardware supplied in the hardware kit or existing hardware specified in the Baseplate Installation Instructions.

Confirm the towability and pre-towing procedures for your vehicle with the owner's manual or contact the vehicle's manufacturer for specific towing procedures.

Attachment Tab Height: 17 1/2"

Attachment Tab Width: 20"

### **Bolt Torque Specifications**

Serial Number

Torque in Foot-Pounds for Metric Bolts

<b>Bolt Size</b>	Grade 8.8	Grade 10.9	
6MM	6	8	
8MM	16	22	
10MM	31	40	
12MM	54	70	
14MM	89	117	

## **Bolt Torque Specifications**

Torque in Foot-Pounds for Inch Bolts

<b>Bolt Size</b>	Grade 5	Grade 8
1/4"	10	14
5/16"	19	29
3/8"	33	47
7/16"	54	78
1/2"	78	119
5/8"	154	230

# **A WARNING**

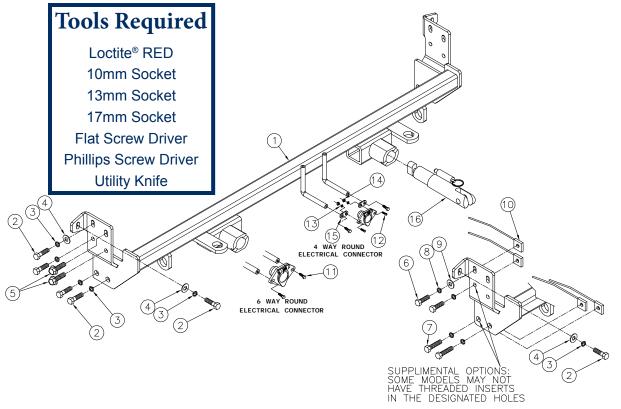

Failure to read and follow these instructions could result in separation of the towed vehicle from the tow bar, causing property damage, loss of towed vehicle, personal injury or death.

### **Important:**

Use only genuine factory replacement parts on your baseplate. Do **NOT** substitute homemade or non-typical parts. If a bolt is lost or in need of replacement, for your safety and the preservation of your baseplate, be sure to use a replacement bolt of the same grade (In most cases it will be Grade 5, please reference the parts list above). Replacement parts may be ordered through your nearest Blue Ox® Dealer or Distributor. Failing to follow and/or altering these installation instructions in either installation or required equipment will void the manufacturer's warranty.

# 2008-11 Mazda Tribute

#### **Installation Instructions**

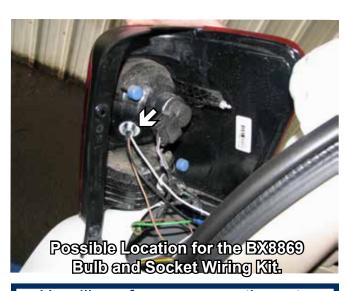

#### **Attachment Tabs:**

Motorhome mount tow bars are recommended for use with this baseplate. Due to the design of the removable tabs, the RangeFinderII and Ambassador tow bars can not be used. Adapters, except the BX8833 and BX88151, can not be used with this baseplate.

**Installation Notes:** The bumper and fascia and are removed for installation. The bumper core is not reinstalled.

The dimensional variations between otherwise identical vehicles can be considerable. While the baseplate was designed for easy installation, it may be necessary to tailor the baseplate slightly to compensate for auto manufacturer's tolerances. These minor adjustments may include filing a hole slightly, bending electrical rods or bending end plates.

The BX8869 Bulb and Socket Wiring Kit is recommended for this vehicle.

Handling of some cosmetic parts when installing this product may require the use of protective covers, rags, specialty tools, etc. to prevent damage.

#### **Installation Instructions:**

 On the upper corner of grille, use the 10mm socket to remove one metric bolt. Do this to both sides of the vehicle. Set bolts aside to be reinstalled later.

Just forward of the front tire, inside the wheel well, remove three Phillips push pins. Do this to both sides of the vehicle. Set push pins aside to be reinstalled later.

Page 3 of 6 405-0015 Rev. F 3/15/11

# 2008-11 Mazda Tribute

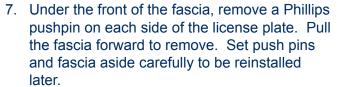

## **Installation Instructions**

3. Using the 10mm socket, remove two metric bolts from bottom corner of fascia, just forward of front tire. Do this to both sides of the vehicle. Set bolts aside to be reinstalled later.

5. Reach in behind the fascia and push the clip holding the fascia down to release. Do this to both sides of the vehicle.

3/15/11

 Remove three bolts from across the bottom corner of the fascia, using the 10mm socket. Set bolts aside to be reinstalled later.

6. Pop out the push pin on the front corner of the fascia. Do this to both sides of the vehicle. Set the push pin aside to reinstall later.

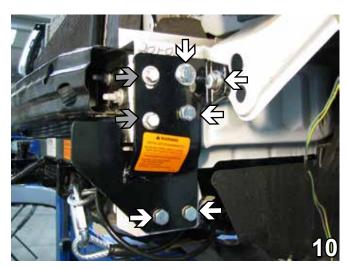

Page 4 of 6 405-0015 Rev. F

# 2008-11 Mazda Tribute

#### **Installation Instructions**

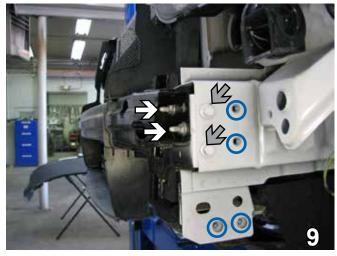

8. Using the flat screw driver, remove push pin from the piece of plastic on the outside of the bumper. Unhook the plastic from the top and the bottom (gray arrow). Do this to both sides of the vehicle. Set aside to be reinstalled later.

10. Align the baseplate with the seven existing holes in the frame. Insert the existing bolts (gray arrows) with Loctite into the baseplate and tighten. Use 10MM-1.5 x 40MM hex bolts with Loctite and 10MM lock washers in all the holes. In the top two also use a 10MM flat washer. Do this to both sides of the vehicle.

BE SURE TO USE LOCTITE® RED ON ALL BOLTS
BEFORE TIGHTENING. TIGHTEN ALL BOLTS
ACCORDING TO THE TORQUE CHART ON THE
FRONT PAGE OF THESE INSTRUCTIONS OR ON
PAGE 3 OF THE BASEPLATE TOWING GENERAL
INSTRUCTIONS.

9. Remove the two nuts holding the bumper on with a 13mm socket. Do this on both sides. The bumper core is removed and not reinstalled. Set the nuts and bumper aside to reinstall later. The two bolts on each side (gray arrows) are removed with a 13mm socket and will be used to attach the baseplate. Note: Some vehicles may not have these holes (circled) with threaded inserts, see supplemental options on page 2 for hardware conversion.

11. Attach the permanent baseplate safety cables to the provided convenience link on the baseplate (see grey arrow). The photo above shows the recommended installation of the cables to frame of vehicle (see white arrow). Additional options may interfere with suggested mounting; in this case secure the cables to a solid piece of the frame as described in the instructions included with the permanent baseplate safety cables. Be sure the safety cables do not rub against any hoses or moving parts. Do this to both sides of the vehicle.

Page 5 of 6 405-0015 Rev. F 3/15/11

# 2008-11 Mazda Tribute

#### **Installation Instructions**

12. Reinstall push pins, bolts, bumper and fascia. The bumper core is not reinstalled.

Be sure that **ALL** electrical connections are plugged in properly and functioning **BEFORE** Installing the fascia.

#### **DEALER or INSTALLER:**

Be certain the user receives the instruction sheets for their products.

Shown without removable tabs installed.

If the baseplate is in an accident, it must be replaced. DO NOT use it again! An accident can cause unseen damage and using it again could result in more damage or serious injury. DO NOT use the baseplate if it is damaged or missing parts. Install the tow bar and safety cables according to the instructions provided in their packages. When demonstrating this to the customer, be sure to include all the contents and packages.

Do **NOT** substitute other devices if the tow bar pins and clips are misplaced.

#### CUSTOMER SERVICE COMMITMENT

Blue Ox is committed to providing you with exceptional customer care throughout your lifetime with our products. Our team is here to assist you with any questions you may have regarding the performance of your product. Simply call 1-(402) 385-3051 and you can speak with our customer care team.

Additionally, please visit our website to see which rallies our Destination America team will be attending. For a nominal fee, our service technician will service your towing system to ensure it's in proper working condition. Also as a commitment to our customers, should you visit our factory you can stay at our full service Blue Ox campground at no charge along with enjoying a factory tour.

Again thank you for being our customer and for the confidence you have shown in the performance of our products. It is because of customers like you we enjoy the success we have today.
