1987-88 TOYOTA COROLLA WAGON 2WD, 1988-92 TOYOTA COROLLA WAGON 4WD,

1987-90 TOYOTA COROLLA WAGON 4WD,

GROSS LOAD CAPACITY WHEN USED AS A WEIGHT CARRYING HITCH: 2,000 LBS. TRAILER WEIGHT & 200 LBS. TONGUE WEIGHT.

DO NOT EXCEED VEHICLE MANUFACTURER'S RECOMMENDED TOWING CAPACITY.

INSTALLATION STEPS

- 1) **TOYOTA AND PRIZM MODELS ONLY:** Position hitch on rear bumper so front bracket holes align with two 12mm threaded weld nuts in front face of metal bumper. At bottom of bumper mark metal retainer strip and plastic facia around hitch bottom bracket. This area (approximately 1 1/2" X 8") must be clear for bracket to fit directly against metal bumper. The retainer is generally removed from bumper for cutting and the plastic facia trimmed with a sharp utility knife. Use a 10mm wrench to remove retainer strip. Pieces of metal retainer strip are replaced to either side.
- 2) LEXUS MODELS ONLY: Remove the plastic fascia center section below the rear bumper.
- 3) The hitch should now align with existing weld nuts located in the metal bumper. Use spacer plate on some models. One additional thickness of 1/2" flat washers may be used for shimming if necessary. Install fasteners as shown. Replace remaining pieces of facia retainer.
- 4) Torque all hardware to 65 lb.-ft.

PERIODICALLY CHECK THIS RECEIVER HITCH TO INSURE THAT ALL FASTNERS ARE TIGHT AND THAT ALL STRUCTURAL COMPONENTS ARE SOUND.

Curt Manufacturing Inc., warrants this product to be free of defects in material and/or workmanship at the time of retail purchase by the original purchaser. If the product is found to be defective, Curt Manufacturing Inc., may repair or replace the product, at their option, when the product is returned, prepaid, with proof of purchase. Alteration to, misuse of, or improper installation of this product voids the warranty. Curt Manufacturing Inc.'s liability is limited to repair or replacement of products found to be defective, and specifically excludes liability for incidental or consequential loss or damage.
